

Only Labour Can Save The NHS

Labour will:

- ✓ Immediately halt all Tory hospital closure plans
- ✓ Reverse privatisation and return to an NHS which is publicly funded, publicly provided and publicly accountable
- ✓ Give the NHS and social care the funding they need
- ✓ Give mental health the same priority as physical health
- ✓ Stand up for patients' rights to access timely and high quality care
- ✓ Scrap the unfair pay cap, bring back bursaries, and put safe staffing levels into law, so that our fantastic hardworking health and care workers get the support they deserve

Love our NHS, Love Labour

Myth-Busting with Labour

The NHS is safe in Tory hands!

Under this Tory government GP surgeries ARE closing, Community Hospitals ARE shutting and care and treatment IS being rationed!

The Tories won't privatise the NHS!

Private companies are already making a profit from our NHS; Virgin Healthcare have £2bn of NHS contracts - and pay zero tax in the UK!

But the NHS is inefficient!

No! The Commonwealth Fund says the NHS is "the best, safest and most affordable service in the world". £4.5bn a year is being wasted in just administering the private market within the NHS.
