

A Safer A38

South East Cornwall CLP notes the high number of accidents and fatalities on the A38 through our constituency.

South East Cornwall CLP believes that safety improvements to the current route should be a matter of urgent priority and that the most dangerous section between Carkeel to Trerulefoot should be replaced, improving safety for drivers and pedestrians as well as air quality and the quality of life in the communities along the current route. The current route should then be used for local traffic and include cycle lanes.

South East Cornwall CLP resolves to support the campaign for a Safe A38.
